

Meiosis/Mitosis Project

We have learned that there are two types of cell reproduction, asexual and sexual. Each type uses a different process, mitosis and meiosis.

You now need to prove that you know the difference between the two processes. You can produce a poster, flip-book, comic book, or an approved project to display your knowledge of mitosis and meiosis. A Venn diagram may be used to compare the two processes.

Include in your project:

- Your name
- A picture of each step. Mitosis:6 Meiosis:10
- Each step labeled.
- Each step described.
- Compare/contrast meiosis and mitosis
- Colorful and organized

	Points Possible	Points Earned
Mitosis	15	
Meiosis	15	
Compare/Contrast	10	
Creativity/Organization	10	
Total	50	

10 pt
bonus
Mitosis Foldable
Meiosis Flip book
EA!

Self Assessment +5 bonus
