

Name: _____ Hour: _____ Group: _____

Data Table

Sample	Color (dark, medium, light, or mixed colors)	Texture (fine, medium, or coarse-grained)	Foliated or Banded	Rock Group (Igneous, Metamorphic, Sedimentary)

Analyze and Conclude

1. Which of the samples would be classified as igneous rocks? What physical properties do these rocks share with the other samples? How are they different?

2. Which of these samples would be classified as sedimentary rocks? How do you think these rocks formed? What are the physical properties of these rocks?
